

# SOUTH BOROUGH PRIMARY SCHOOL

## EYFS Learning Flyer - Term 3

This Learning Flyer shows what your child will be learning this term.

### Phonics - Literacy

This term, the children will continue to explore sounds and letters in the continuous provision through literacy rich activities and resources. In nursery the children will also be introduced to the sounds that make their names and will continue to learn new rhymes, poems and stories. Meanwhile, in Reception, children will be using their phonics knowledge, along with the skills they've learnt in class to begin writing words and sentences. We'll also be encouraging children to continue blending and reading green words in their environment.

### Maths

Reception will be consolidating the knowledge they've learnt so far and building on their understanding of numbers to ten. This term we will also be examining methods of measurement, from length and height to mass and capacity.

Nursery will explore different 2D and 3D shapes this term. They will also continue to count up to 10 and learn to match numerals with their quantities.

### Understanding the World

This term the children will be exploring the concept of journeys and transportation. We'll be looking at different methods of transportation, and at the different places we could visit on a journey, from a trip to the park to another country or even space! We'll be introducing the children to maps this term and celebrating all the wonderful cultures and countries that we could visit.

### Personal, Social and Emotional Development

Children will continue to develop self-confidence and independence in all the things they do in school and also learn to support their peers. Children will have opportunities to be responsible through looking after the school resources appropriately. Children will be encouraged to express their feelings and develop strategies to cope with new, challenging or stressful situations.

### Communication and Language

Reception and Nursery will be listening to and following instructions given. They will be making predictions about what might happen next in the story. There will be a lot of opportunities for reading and retelling sequential stories based around our topic Journeys. Children will be encouraged to describe events in their lives or in the stories.

### RE Day

This term, we will be learning about the religion 'Hinduism'.

## Journeys

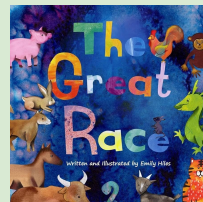

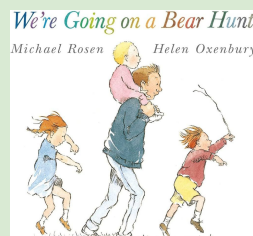

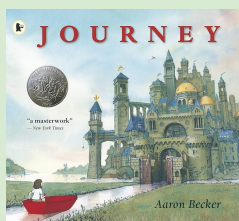

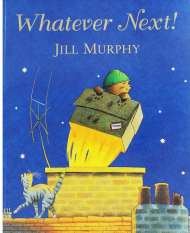

### Expressive Arts and Design

Just like in our story; 'Whatever Next' the children will have the opportunity to use junk modelling to make a rocket to take us to space. We'll be exploring different methods and materials in order to make methods of transportation from boats to airplanes.

### Physical Development

Children in Nursery and Reception will continue to have lots of opportunities to practise their gross and fine motor skills through appropriate activities set out in the continuous provision. Reception will also be learning to balance their bodies and use the equipment safely and appropriately through Gymnastics.

### Books we will be reading this term:

### Value of the Term

## DETERMINATION

We don't give up - we ask for help if we need it.

### Home Learning

Try to read and watch phonics videos and get your reading record signed to have your read counted! Please talk to your child about their feelings in regards to starting Reception.
