

SOUTH BOROUGH PRIMARY SCHOOL

After School Clubs- *Term 3 & 4*

Each of the members of staff have provided a brief overview of each club and what your children can expect if they are successful in acquiring a place in the club.

KS2 Badminton Club - Team Theme coach:

We will be developing skills and knowledge based around key principles of badminton, with the aim of developing skills and fostering enthusiasm for badminton. This will take place in a relaxed and fun environment designed to ensure that children of all abilities can access, enjoy and excel in this club.

KS2 Computing Club - Miss Chevis:

Are you interested in developing your computing skills? In this club we will use technology to gather data, interpret it and present our findings. We will do this using Google software. In addition, we will look at how we can use technology in creative ways to make media, such as posters and videos.

KS1 Mindfulness and colouring - Miss Wright:

The children will take part in a range of calming activities. They will have the chance to draw or colour and to show off their creativity. Mindfulness club will provide the opportunity for children to foster a sense of community and allow the children to share their feelings.

KS1 Hockey Club - Team Theme Coach:

We will be developing skills and knowledge based around key principles of hockey, with the aim of developing skills and fostering enthusiasm for hockey. This will take place in a relaxed and fun environment designed to ensure that children of all abilities can access, enjoy and excel in this club.

KS1 Gymnastics - Mrs Bembridge:

Gymnastics is tons of fun, great exercise and a great way to channel energy in little ones, but there are tons of other lasting benefits and life skills that can be achieved. Here's are some reasons why your child should participate in a structured gymnastics program: Coordination, upper and lower body strength, eye-hand coordination, agility and many other skills.

KS2 Gymnastics - Mrs Bembridge

Gymnastics is tons of fun, great exercise and a great way to channel energy in little ones, but there are tons of other lasting benefits and life skills that can be achieved. Here's are some reasons why your child should participate in a structured gymnastics program: Coordination, upper and lower body strength, eye-hand coordination, agility and many other skills.

Year 2 Disney Club - Ms Miller:

Come along and find out about all things "Disney". Pupils will have the opportunity to discover the background of Walt Disney and all the different characters and storylines created. We will be watching short clips of the many films produced and looking at the characters that have become favourites with everyone and how they link to traditional tales and books. We will be creative by drawing, colouring and building many of the characters and singing along to many of the popular tunes, Don't miss out - we even go treasure hunting!
