

# STAY 'n' PLAY

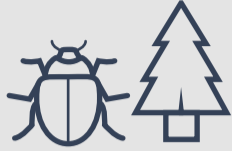

NEWSLETTER 13.0

## I TERM 5 HIGHLIGHTS

What we've been busy doing!

### Forest School

What we're discovering...

We've been outside making the most of the sun (when it appears!) creating seasonal, nature mixed-media collages; utilising items that can be found outdoors at this time of year

### Science Club

What we're creating...

Scientific principles like surface tension, air pressure and cause-and-effect have driven our home-made bubble experiments this term - with great results

### Construction Club

What we're building...

We've had our 'engineers hats' on in races to build the tallest towers - a great way to get to grips with the practical mechanics of gravity, balance, and structural stability

## I NOTICE BOARD

Stay 'n' Play reminders

### Emergency Contacts & Pick-up Pins

Please can we kindly ask once again that emergency contacts are up to date with 2 contacts provided, and that pick-up pins are activated and being used. Thank you for your support.

### Sunny weather

Although perhaps hard to imagine it now...term 6 should definitely see some hotter weather! Could we please ask that sun-safe precautions such as hats and sun cream are on hand.

## I FROM US TO YOU

A gift to say thanks.

To thank all of our wonderful families for the continued support at our Stay 'n' Play settings, we're offering an exclusive discount to attend our Summer Camps. Look out for all the details as they are released next term.

We hope your children are enjoying their time at Stay 'n' Play as much as we enjoy having them! If you've any feedback or suggestions, feel free to reach out
