

Relationships Online

What is an online relationship?

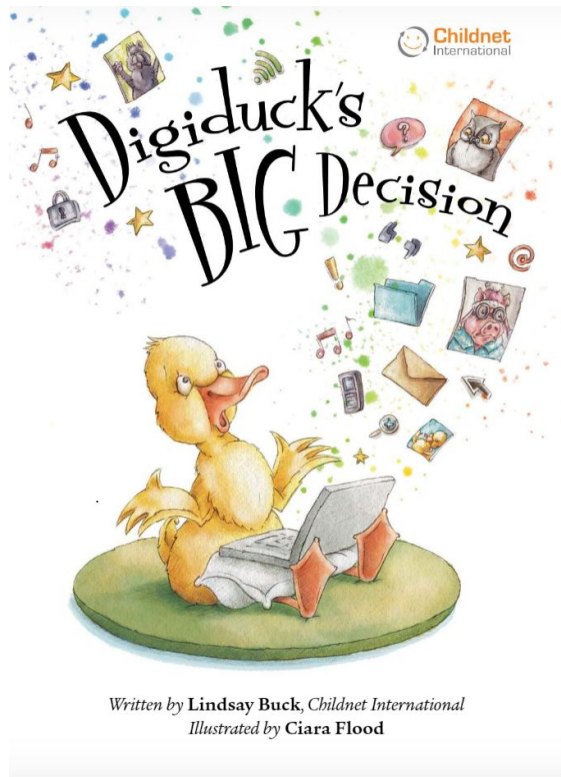

How do you stay safe?

How do you keep others safe?

How do you communicate online?

Can your online relationships affect your face to face relationships?

[\(Click on the image for the story\)](#)

Think about the questions we asked and answered at the beginning of the assembly.

What online relationships does Digiduck have?

How does Digiduck keep himself safe online?

How does Digiduck keep his friends safe online?

Have you ever been in a similar situation as Digiduck?

Has something happened online to you?

Reflect

Think about Digiduck and what happened in the story we read together.

What will you do next time someone shares or posts something unkind?

Do you have control over what is shared with you?

Do you have control over what you share?

Can an online relationship affect your face to face relationships?
